

# NATIONAL REGULATION FOR PRACTICAL EXAMS

## 1. Introduction

As the global forum for cooperation among its Member States and the world aviation community, the International Civil Aviation Organization (ICAO) sets and evolves Standards and Recommended Practices (SARPs) for the safe and orderly development of international civil aviation.

In IVAO, ICAO recommended practice is the source of our documentations for theoretical and practical examination.

But, ICAO documentations are only recommended practice and not mandatory practice. Each state can set up its national regulation which can be different from the ICAO recommended practice.

These documents will gather all sources of specific regulations located in active divisions websites. These documents are mandatory for a practical exam. A practical exam is based on local regulations.

To be active, these national regulations shall be published on active divisions websites and shall not require any additional login.

As all exams can only be performed in active divisions, we present you only the publications published by these divisions.

This document is classified by continent.

- Africa
- North-America
- South-America
- Asia
- Europe
- Oceania

If your division is missing in this document or some links are broken, tell your staff to contact the IVAO training HQ in order to complete this document.
